

Dear all,

Thanks for being at the 29er Worlds. It has been a pleasure for us to have you here. Tomorrow when the event ends - the logistics around the packing will be chaos and everybody will need to be patient.

It will be better for everybody if you follow these rules:

- If possible: wait until Saturday – or Friday late evening
- Coach boats has a ramp on the other side of the harbour (see ‘what to expect-document) – not at the Sailing Center Ramp
- Don’t block/ park at the main roads nor the bus-turning-area – and follow our volunteers instructions. The instruction can also be that area is full and you will have to come back later for loading
- There will be loading areas both in the boat park and outside. Do NOT bring your trailer before the boat is ready for loading – and when packed please remove the loading area again.
- Cars will not be allowed inside boat park gate to the boat park before boat park is half way empty, but as long as space available trailers can go in there for loading
- During the race-day, parents/support persons eventually can take trailers into the boat-park for a quick departure after the race. Also boats not sailing on Friday
- You can eventually consider finishing the loading in trailer park at Pier 3 - a 10 minute walk....
